Description: The youngest astronomers can go forth and journey into outer space in this fun, basic introduction to the solar system. The unique format presents our sun and each planet in order with graduated flaps—turn each flap to reveal fascinating facts on each celestial body, and even the Milky Way!...

Review: This is a terrific book. My son just turned 3, and he is obsessed with the planets. He loves this book. The pictures are detailed and beautiful, and the flaps make it really easy for him to turn the pages. The text is simple and gives a couple quick facts about each planet. A great introduction to the solar system for little ones. My son hugged the...
